INDEX OF SUBJECTS

Volume 16

Journal of the National Cancer Institute

2-Acetylaminofluorene:
  comparison of patterns of excretion and carcinogenicity in rat, 11
  tumors induced in rats by, 489
Acetylpodophyllotoxin - ω - pyridinium chloride:
  effect of on enzymes in tumors, 99
  effect of on sarcoma 37 enzyme systems, 1443
Adrenal glands of rats, histopathologic changes produced in by diet, 1163
Adrenocortical adenocarcinoma in rats fed carcinogenic diet, 723
Amethopterin, synergistic action with 6-mercaptopurine in mouse leukemia, 129
Amino acids:
  effects of on pigment synthesis in skin, 475
  metabolism of in synthetic media, 995
o-Aminoazotoluene plus stilbestrol in carcinogenesis in mice, 107
Aminopeptidase in human neoplasms, histochemical demonstration of, 1149
Aminopterin in treatment of leukemia, 709
Announcements:
  Cancer Fellowships and Residencies, II (Dec.)
  First International Human Genetics Congress, 1307
  Gastrointestinal Cancer Conference, 591
  Grants in Cancer Research, 349, 592
  Medical Research Fellowships, 591
  Publication of Cancer Chemotherapy Screening Data, 1507
  Rhesus Monkeys for Medical Research, 591
  Third National Cancer Conference, 1307
Antigens:
  iso- ———, *in vitro* studies in mice on, 1473
  of avian myeloblastosis virus, 593
Antileukemic agents:
  amethopterin, 129
  aminopterin, 709
  6-mercaptopurine, 129
Ascites tumors:
  human ovarian cystocarcinoma, study of chromosomes in cells of, 1067
  transplantation of, into immunized mice, 1083
  see also Ehrlich ascites tumor; Krebs-2 carcinoma
Avian erythromyeloblastic leukosis: *see* Virus
Avian erythroblastosis: *see* Virus

Benzo[*a*]pyrene (3,4-benzpyrene):
  in pyrogenic materials, 1485
  in skin carcinogenesis in mice, 989
Benzoquinone, influence of on Ehrlich ascites-tumor cells, 1453
Bile-acid derivatives:
  preparation of, 225
  clinical evaluation of, 237
  role in seroflocculation reaction, 225
Bone marrow, effect of on X-irradiated mice, 1
Brain, chick, as host-virus system for Rous sarcoma virus, 865

Cancer cells, seeding of operative wounds with, 645
Carcinogenesis: *see* Tumorigenesis
Carcinogens: *see* 2-Acetylaminofluorene; *o*-Aminoazotoluene; Benzo[*a*]pyrene (3,4-benzpyrene); Chromium; 2-Diacetylaminofluorene; 1,2,5,6-Dibenzanthracene; *p*-Dimethylaminoazobenzene; 9,10-Dimethyl-1,2-benzanthracene; Methylcholanthrene; Nickel; Trypan blue
Cell nutrition:
  comparison of various synthetic media, 1405

379436—56——21

Cell nutrition—Continued
effect of serum fractions on cell proliferation, 789
growth of Walker carcinosarcoma 256 cells in fluid media, 1221
synthetic nutrients, chemically defined, 769
use of supplemented synthetic media, 557
Chemotherapy of leukemia in mice, 129, 709
Chromium and chromite ore in metal cancerigenesis of rats, rabbits, and dogs, 447
Chromosome studies:
characteristics of mitosis in HeLa cells, 1047
correlation of chromosome duplication and tumor transplantability, 803
in human ascites tumors, 1067
observations on mitosis with phase cinematography, 691
transplantability of ascites tumors into immunized mice, 1083
Compounds: *see* names of
Croton oil:
as a carcinogen in mice, 961
effects of on epithelial proliferation in mice, 255

Desmoid tumor of popliteal space in pregnancy, 569
2-Diacetylaminofluorene, induction of hepatomas with, 927
1,2,5,6-Dibenzanthracene, pulmonary tumors in mice induced with, 763
Diet:
carcinogenic, adrenocortical adenocarcinomas in rats fed, 723
low-roughage, influence of on incidence of lesions in mice, 889
semisynthetic, effect of on adrenal glands of rats, 1163
with riboflavine in tumor induction in rats receiving carcinogen, 489
p-Dimethylaminoazobenzene:
development of adrenocortical adenocarcinoma in rats fed, 723
effect on mitochondrial enzymes, 1459
histopathology of adrenal glands in rats fed, 1163
9,10-Dimethyl-1,2-benzanthracene:
compared with carcinogenicity of croton oil in mice, 961
development of leukemia in mice following injection of into thymus, 1129
9,10-Dimethyl-1,2-benzanthracene—Con.
induction of plasma-cell leukemias with, 1137
Dose-response data in experimental carcinogenesis, analysis of, 195

Ehrlich ascites tumors, influence of stilbestrol and quinone on cells of, 1453
Enzymes:
changes of in tumors with chemical agents, 31, 99
changes induced with chemical agents, 1443
mitochondrial, effects of carcinogen and other factors on, 1459

Fish, metabolism of melanomas in, 741
Fluorene compounds, comparison of patterns of excretion and carcinogenicity in rat, 11

Gastritis, chronic, pathology of in mice, 889
Genetic studies:
development of pulmonary tumors in mice in relation to three dominant genes, 763
modifiers of mouse kidney glycolysis, 1249
relationship between genotype and mammary tumor agent, 1309
relationship between obese genotype and Harding-Passey melanoma in mice, 1231
variability of mammary tumor incidence in DBA mice, 1335
Glucose utilization:
by sarcoma 37, effect of α-peltatin on, 31
in tumors, regulation of by hormones, 351

Harding-Passey melanoma:
effect of on anaerobic glycolysis in mouse kidneys, 1249
glucose utilization in, 351
relationship to obese genotype in mice, 1231
Hepatomas:
——— 129, effect of acetylpodophyllotoxin-ω-pyridinium chloride on enzyme systems of, 99
induced by *o*-aminoazotoluene plus stilbestrol in mice, 107
in rats, influence of sex and sex hormones on, 927
Histochemistry, demonstration of proteolytic activity in human neoplasms, 1149

Homotransplantation: *see* Transplantation
Hormones:
effects on utilization of glucose, 351
sex, role of in induction of hepatomas in rats by 2-diacetylaminofluorene, 927

Immunity studies:
in mice, use of diffusion chambers for, 1257
in vitro, on iso-antigen systems in mice, 1473
in vitro reaction of lymphosarcoma cells to homologous immune serum, 1021
Instrumentation:
chromatography, paper, for separation and resolution of amino acids in synthetic media, 995
cinematography, phase-contrast,
in immunity studies, 1021
observations on mitosis with, 691, 1047
circling device for marking areas on slides, 985
diffusion chambers, in immunity studies in mice, 1257
electrodes, glass, for measurement of tumor *p*H, 541
microscopy, phase-contrast, in study of cells in peritoneal fluid, 415
syringe for applications of carcinogen on skin, 989
Intramandibular tumors in mice, hairs in mandible accompanying, 659

Janus green B, enzymic nature of staining with, 173

α-Keto acids in tissue culture, 337
Kidney, transplant of bone tumor to, 951
Krebs-2 carcinoma:
effect of temperature on growth in mice, 405
glucose utilization in, 351
Krebs-cycle dehydrogenases, detection of with Janus green B, 173

Leukemia:
chemotherapy of in mice, 129
development of in mice following injection of carcinogen into thymus, 1129
factors influencing chemotherapy, 709
in mice, produced by cell-free filtrates, 41
plasma-cell, in mice, 1137
——— -producing agents in mice, 41
see also Virus, Avian
Leukemic tissue, neoplasms in mice following introduction of, 495
Lipides:
effects of metabolic inhibitors on, in tissue culture, 1011
in spleen of tumor-bearing rats, 913
Lung cancer:
discussion of statistics on mortality in U. S., 267
epidemiology of and smoking patterns, 1417
Lymphomas, effect of hypophysectomy and X irradiation on, in mice, 139
Lymphomatosis, visceral: *see* Virus

Mammary tumors:
in C3H mice and hybrids, 1263
relationship of agent to genotype in mice, 1309
variability of incidence in DBA mice, 1335
Mandibular tumors: *see* Intramandibular
Melanomas:
metabolism of in fish, 741
human, glucose utilization in, 351
S91,
effects of temperature on growth in mice, 405
glucose utilization in, 351
S91A amelanotic,
effects of temperature on growth in mice, 405
glucose utilization in, 351
6-Mercaptopurine, synergistic action with amethopterin in mouse leukemia, 129
Metals: *see* Chromium, Nickel
Methylcholanthrene:
effects of on epithelial proliferation in mice, 255
role of hair follicles in carcinogenesis in mice produced by, 205
Mitochondria, characterization by Janus green B, 173
Mitosis:
characteristics of in HeLa cells, 1047
observations on with phase-contrast cinematography, 691
Mortality statistics in U. S., data available on lung cancer, 267

Nickel, powdered, cancer produced by in rats, rabbits, and dogs, 55
Nuclear size in tissues of tumorous and nontumorous mice, 579

Olive oil, effects of on epithelial proliferation in mice, 255

Parotid-gland tumors, development in mice after introduction of leukemic tissue, 495
α-Peltatin, effect of on glucose utilization and enzymes in tumors, 31
Pericarditis, calcareous, pathology of in mice, 889
pH of rat tumors measured *in vivo*, 541
Polyps, duodenal, pathology of in mice, 889
Promoting agents, carcinogenic action of in mice, 961
Pulmonary tumors:
  development of in mice in relation to three dominant genes, 763
  induction and growth of in mice with urethan, 75
Pyrogens, benzo[*a*]pyrene content of, 1485
Pyruvic acids in tissue culture, 337

Radiation: *see* X irradiation
Reticulum-cell sarcoma:
  inhibition of production with trypan blue in rats by preirradiation, 1197
  production of with trypan blue in rats, 1181
Riboflavine:
  dietary levels and tumor induction in rats receiving carcinogen, 489
  in mouse diet, test for protective action of, 107
  in semisynthetic diet, effect of on adrenal glands of rats, 1163
Rous sarcoma: *see* Virus

Saliva, metabolism of thiamin in, 971
Sarcoma:
  ——— 37, effect of acetylpodophyllotoxin-ω-pyridinium chloride on enzyme systems of, 99
  effect of α-peltatin on enzyme systems of, 31
  enzyme changes in, produced with chemical agents, 1443
  growth studies in mice, 1207
  transplanted osteogenic, morphology of in mice, 951
Schistosoma, lack of carcinogenicity of in mice, 471
Seeding of operative wounds with cancer cells, 645
Seroflocculation reaction:
  clinical evaluation of in patients with cancer, 237
Seroflocculation reaction—Continued
  role of bile-acid derivatives in, 225
Skin:
  carcinogenesis, quantitative approach to dose-response relations in mice, 989
  effects of amino acids on pigment synthesis in, 475
Smoking:
  habits of 21,612 Texans, 1287
  patterns of and epidemiology of lung cancer, 1417
Spleen lipides and water in rats bearing tumor, 913
Stains: *see* names of
Stilbestrol:
  carcinogenic effects of in combination with azo dyes in mice, 107
  influence of on Ehrlich ascites-tumor cells, 1453
Stress, effects of on glucose utilization in tumors, 351

Temperature, effects of on growth of tumors in mice, 405
Thymus, development of leukemia in mice after injection of carcinogen in, 1129
Thiamin, metabolism of in saliva and salivary glands, 971
Tissue culture:
  comparison of various synthetic media, 1405
  defined nutrients for strain L cells, 769
  effects of amino acids on synthesis of pigment in skin, 475
  effects of metabolic inhibitors on strain L cells, 1011
  effects of serum fractions on cell proliferation, 789
  growth of Walker carcinosarcoma 256 cells in fluid media, 1221
  α-keto and pyruvic acids in, 337
  metabolism of amino acids in synthetic media, 995
  plant, effect of antibiotics on bacterial contamination, 981
  sponge-matrix, influence of various factors on invasive properties of HeLa, 1353
  supplementation of medium M 150, 557
  use of reconstituted rat-tail collagen for cell growth, 1375
Transplantation:
  of ascites tumors into immunized mice, 1083

Transplantation—Continued
of osteogenic sarcoma to kidney, 951
of solid tumors related to chromosome duplication in mice, 803
tolerance of host to foreign tumor implant, 1305
Trypan blue:
production of reticulum-cell sarcoma in preirradiated rats with, 1197
production of reticulum-cell sarcoma in rats with, 1181
Tumorigenesis:
experimental, dose-response data in, 195
lack of in mice with *Schistosoma*, 471
role of hair follicles in mice in, 205
see also names and types of tumors

Urethan, induction and growth of pulmonary tumors in mice with, 75

Virus:
avian erythroblastosis,
titration of infectivity, 1099
avian erythromyeloblastic leukosis,
antigenicity and immunology, 593
dephosphorylation of inosinetriphosphate, 163
Virus—Continued
avian erythromyeloblastic leukosis—Continued
thermal stability of, 153
Rous sarcoma,
host-virus system for studies on, 865
interpretation of tumor-response data, 843
preparation of improved standard lots of, 877
recovery of from experimental tumors in relation to iniating dose, 317
review of sources of experimental variation and methods for control, 285
visceral lymphomatosis, bioassay of, 1121

Walker carcinosarcoma, 256:
analysis of spleen in rats bearing, 913
growth of cells of in tissue culture, 1221

X irradiation:
effects of in mice following administration of bone marrow, 1
effects of on mouse lymphoid organs following hypophysectomy, 139
inhibition of production of sarcomas with trypan blue in rats by, 1197
